

LBW ENVIRONMENT'S VOTE OF THANKS FINALIST TELSTRA BUSINESS AWARDS 2011

LBW is proud to have been recognised as one of South Australia's leading small environmental consulting companies with its announcement as one of four finalists in this year's Telstra Business Awards in the MYOB Small Business category. Given the strength of small business in SA we are humbled to have been selected as a finalist.

LBW was assessed by a panel of judges across nine different categories, including business and client relationship philosophies, marketing strategies and commitment to innovation and social responsibility.

At the gala dinner held at the Hilton Adelaide on Friday 22 July 2011 achievements of South Australian small to medium-size businesses were recognised, with LBW sharing the category spotlight with Health & Life, Hern Financial Services and North Adelaide Fitness Centre. Congratulations are extended to Health and Life (winner) and the other two finalists – we share your passion and determination and appreciate the demand for excellence that drives your businesses.

LBW, now with nine employees, has doubled turnover and office space in the last two years. The finalist spot in the Telstra Awards follows LBW's 7th place in the SA Fast Movers Award for 2010.

We are thrilled at how far the business has come in such a short time. In 2007, after many years as employees in the engineering and environmental consulting companies, we established LBW to make a positive difference to our large family; to our staff and to our clients. It remains our main source of motivation today.

We are immensely grateful for the fantastic relationships we have with our clients, whose projects demand the best of us; our staff who share the journey and the workload come rain hail or shine; and our network of suppliers, contractors, business partners and family and friends who make us stronger for their involvement. A big thank you to all of you – your support underpins our success.

A final vote of thanks is extended to our anonymous nominator. The journey we have been on over the last few months and the expert feedback we received from the business community as part of our involvement has been incredible. We are humbled for the acknowledgement and look forward to continuing to offer our points of difference in Australia's environmental consulting industry for years to come.
