

Occupational Health, Safety & Welfare Policy Statement

LBW Environment Pty Ltd is committed to providing a safe and healthy workplace for all members of staff, contractors, suppliers and visitors. We believe that all personnel play a vital role in contributing to a healthy and safe workplace and we will provide ongoing training and guidance to ensure relevant legislative requirements are met or exceeded.

Consultation, communication and ongoing reviews will be had with staff concerning the health and safety requirements of their specific roles to ensure that the most appropriate guidelines and procedures are in place.

Workplace factors affecting the health and safety of staff, the community and the environment will be determined, monitored and evaluated in our pursuit of zero lost time incidents and environmental sustainability.

It is our expectation that all members of staff, contractors, suppliers and visitors value the welfare and safety of others as highly as we do, acknowledge their responsibility and will adhere to our health and safety policies and procedures.

Supporting procedures to this policy statement detail the actions required to implement this policy. A commitment to reviewing the policy each year will ensure legislative and organisational requirements will continue to be met.
